Subject Index

Acanthamoeba keratitis
CL associated bacterial keratitis: Past, present and future, 52
Evaluation of contamination of used disposable CLs by *Acanthamoeba*, 155
Management of infectious keratitis as we approach the 21st century, 175

Allergic Conjunctivitis
Mydriasis form inadvertent topical application of Naphazoline hydrochloride (Opcon-A, Bausch & Lomb) (letter), 72
Tarsal abnormalities: A new grading system, 210

Aphakia
Phakic refractive lens (letter), 198
Rigid gas permeable CL changes in the aphakic infant, 36

Aspergillus fumigatus
Effectiveness of several soft CL care systems against *Aspergillus*, 82
Retained *Aspergillus*-contaminated CL Inducing conjunctival mass and keratoconjunctivitis in an immunocompetent patient, 57

Astigmatism
Analysis of the accuracy of predicted corneal acuity in the Holladay diagnostic summary program, 141
Corneo-scleral RGP lenses for Post-graft patients (letter), 198
Refractive change following pterygium surgery, 115
Rigid gas permeable CL fitting after radial keratotomy, 33

Benzalkonium Chloride (BAK)
Five-minute removal of soft lenses prevents most absorption of a topical ophthalmic solution, 227

Blepharitis
Twice-a-day versus four-times-a-day Ofloxacin treatment of external ocular infection, 48

Book Reviews
Surgery of the eyelid, orbit and lacrimal system, volume 3, 8

Cataract
Rigid gas permeable CL changes in the aphakic infant, 36

CLAO
CLAO membership: More valuable than ever (editorial), 70
CL articles in the literature: An update, 152
1999 CLAO annual meeting program planner, 201

Collagen shields
Collagen shield delivery of tobramycin to the human eye, 166
Delivery of trifluridine to human cornea and aqueous using collagen shields, 122

Conjunctivitis
Retained *Aspergillus*-contaminated CL Inducing conjunctival mass and keratoconjunctivitis in an immunocompetent patient, 57
Tarsal abnormalities: A new grading system, 210
Twice-a-day versus four-times-a-day Ofloxacin treatment of external ocular infection, 48

Contact lens complications
CL articles in the literature: An update, 152
Clinical survey of lens care in CL patients, 216
Contact lenses: Knowledge is safety (editorial), 194
Effectiveness of several soft CL care systems against *Aspergillus*, 82
Evaluation of contamination of used disposable CLs by *Acanthamoeba*, 155
Increased *Pseudomonas aeruginosa* adhesion following air drying of etafilcon A soft CLs, 236
Overnight corneal swelling in symptomatic and asymptomatic CL wear, 169
Suction cup/CL complications following penetrating keratoplasty, 59
Surface deposits on frequent replacement and conventional daily wear soft CLs: A Scanning electron microscopic study, 232

Contact lens dehydration
Increased *Pseudomonas aeruginosa* adhesion following air drying of etafilcon A soft CLs, 236

Contact lens deposits
Defining the physiologically normal coating and pathological deposit: An analysis of sulfur-containing moieties and pellicle thickness on hydrogel CLs, 85
Increased *Pseudomonas aeruginosa* adhesion following air drying of etafilcon A soft CLs, 236
Surface deposits on frequent replacement and conventional daily wear soft CLs: A Scanning electron microscopic study, 232

Contact lens disinfection
Clinical survey of lens care in CL patients, 216
Effectiveness of several soft CL care systems against *Aspergillus*, 82
Evaluation of contamination of used disposable CLs by *Acanthamoeba*, 155
Five-minute removal of soft lenses prevents most absorption of a topical ophthalmic solution, 227

Contact lens solutions
Clinical survey of lens care in CL patients, 216
Contact lenses: Knowledge is safety (editorial), 194
Effectiveness of several soft CL care systems against *Aspergillus*, 82
Evaluation of contamination of used disposable CLs by *Acanthamoeba*, 155
Five-minute removal of soft lenses prevents most absorption of a topical ophthalmic solution, 227
Tarsal abnormalities: A new grading system, 210

Contact lenses (CLs)
Alcaligenes xylosoxidans keratitis post penetrating keratoplasty in a RGP lens wearer, 239
An alternative approach to bandage CLs, 118
CL induced peripheral ulcers during hydrogel CL wear, 145
CL articles in the literature: An update, 152
Clinical survey of lens care in CL patients, 216
Contact lenses: Knowledge is safety (editorial), 194
Comparison of axial and instantaneous videokeratographic data in keratoconus and utility in CL curvature prediction, 22
CL associated bacterial keratitis: Past, present and future, 52
Corneo-scleral RGP lenses for Post-graft patients (letter), 198
Cytotoxic strains of *Pseudomonas aeruginosa* can damage the intact corneal surface in vitro, 41
Determination of oxygen tension on rabbit corneas under CLs, 220
Defining the physiologically normal coating and pathological deposit: An analysis of sulfur-containing moieties and pellicle thickness on hydrogel CLs, 85
Effectiveness of several soft CL care systems against *Aspergillus*, 82
Five-minute removal of soft lenses prevents most absorption of a topical ophthalmic solution, 227
Evaluation of contamination of used disposable CLs by *Acanthamoeba*, 155
Evaluation of night vision disturbances in CL wearers, 107
Fitting characteristics of Dailies™ daily disposable hydrogel CLs, 102
Increased *Pseudomonas aeruginosa* adhesion following air drying of etafilcon A soft CLs, 236
Influence of special-effect CLs (Crazy Lenses®) on visual function, 29
Management of infectious keratitis as we approach the 21st century, 175
Masking of irregular corneal topography with CLs, 76
Mydriasis form inadvertent topical application of Naphazoline hydrochloride (Opcon-A, Bausch & Lomb) (letter), 72
Overnight corneal swelling in symptomatic and asymptomatic CL wear, 169
Peripheral corneal infiltrates and CL wear (editorial), 134
Phakic refractive lens (letter), 198
Retained *Aspergillus*-contaminated CL Inducing conjunctival mass and keratoconjunctivitis in an immunocompetent patient, 57
Rigid gas permeable CL changes in the aphakic infant, 36
Rigid gas permeable CL fitting after radial keratotomy, 33
Special-effect CLs, 72
Suction cup/CL complications following penetrating keratoplasty, 59
Surface deposits on frequent replacement and conventional daily wear soft CLs: A Scanning electron microscopic study, 232
Tarsal abnormalities: A new grading system, 210
Use of occluding tinted CLs, 125

Contrast sensitivity
Influence of special-effect CLs (Crazy Lenses®) on visual function, 29
Special-effect CLs, 72

Corneal epithelium
Cytotoxic strains of *Pseudomonas aeruginosa* can damage the intact corneal surface in vitro, 41
Delivery of trifluridine to human cornea and aqueous using collagen shields, 122
Determination of oxygen tension on rabbit corneas under CLs, 220
Keratocyte apoptosis in refractive surgery, 181
Overnight corneal swelling in symptomatic and asymptomatic CL wear, 169

Corneal infiltrates
CL induced peripheral ulcers during hydrogel CL wear, 145
Management of infectious keratitis as we approach the 21st century, 175
Overnight corneal swelling in symptomatic and asymptomatic CL wear, 169
Peripheral corneal infiltrates and CL wear (editorial), 134

Corneal perforation
Spontaneous corneal perforation in pellucid marginal degeneration, 186

Corneal topography
Analysis of the accuracy of predicted corneal acuity in the Holladay diagnostic summary program, 141
Comparison of axial and instantaneous videokeratographic data in keratoconus and utility in CL curvature prediction, 22
Masking of irregular corneal topography with CLs, 76
Role of computerized corneal topography in RGP CL fitting, 206

Corneal ulcers
Alcaligenes xylosoxidans keratitis post penetrating keratoplasty in a RGP lens wearer, 239
CL induced peripheral ulcers during hydrogel CL wear, 145
CL associated bacterial keratitis: Past, present and future, 52
Cytotoxic strains of *Pseudomonas aeruginosa* can damage the intact corneal surface in vitro, 41
Evaluation of contamination of used disposable CLs by *Acanthamoeba*, 155
Increased *Pseudomonas aeruginosa* adhesion following air drying of etafilcon A soft CLs, 236
Management of infectious keratitis as we approach the 21st century, 175
Overnight corneal swelling in symptomatic and asymptomatic CL wear, 169
Peripheral corneal infiltrates and CL wear (editorial), 134

Corticosteroids
Topical Cyclosporine A in the Management of postkeratoplasty glaucoma and corticosteroid-induced ocular hypertension and the penetration of topical 0.5% Cyclosporine A into the cornea and anterior chamber, 159

Cycloplegia
Changes in intraocular pressure due to cycloplegia, 111

Disposable contact lenses
An alternative approach to bandage CLs, 118
CL associated bacterial keratitis: Past, present and future, 52
Evaluation of contamination of used disposable CLs by *Acanthamoeba*, 155
Fitting characteristics of Dailies™ daily disposable hydrogel CLs, 102
Peripheral corneal infiltrates and CL wear (editorial), 134

Editorials
CLAO membership: More valuable than ever, 70
Contact lenses: Knowledge is safety, 194
Peripheral corneal infiltrates and CL wear, 134
The ICLSO inaugural meeting: Increasing knowledge in a shrinking world, 4

Extended wear
CL induced peripheral ulcers during hydrogel CL wear, 145
CL associated bacterial keratitis: Past, present and future, 52
Peripheral corneal infiltrates and CL wear (editorial), 134

Frequent replacement contact lenses
CL associated bacterial keratitis: Past, present and future, 52
Surface deposits on frequent replacement and conventional daily wear soft CLs: A Scanning electron microscopic study, 232

Giant papillary conjunctivitis
Tarsal abnormalities: A new grading system, 210

Glaucoma
Topical Cyclosporine A in the Management of postkeratoplasty glaucoma and corticosteroid-induced ocular hypertension and the penetration of topical 0.5% Cyclosporine A into the cornea and anterior chamber, 159

In memoriam
Louis Ainsley Wilson, MD 1930–1998

Intraocular pressure
Changes in intraocular pressure due to cycloplegia, 111
Topical Cyclosporine A in the Management of postkeratoplasty glaucoma and corticosteroid-induced ocular hypertension and the penetration of topical 0.5% Cyclosporine A into the cornea and anterior chamber, 159

Keratoconus
Analysis of the accuracy of predicted corneal acuity in the Holladay diagnostic summary program, 141
Comparison of axial and instantaneous videokeratographic data in keratoconus and utility in CL curvature prediction, 22
Keratocyte apoptosis in refractive surgery, 181
Masking of irregular corneal topography with CLs, 76

Laser in situ keratomileusis (LASIK)
Keratocyte apoptosis in refractive surgery, 181

Microbial keratitis
Alcaligenes xylosoxidans keratitis post penetrating keratoplasty in a RGP lens wearer, 239
CL induced peripheral ulcers during hydrogel CL wear, 145
CL associated bacterial keratitis: Past, present and future, 52
Cytotoxic strains of *Pseudomonas aeruginosa* can damage the intact corneal surface in vitro, 41
Evaluation of contamination of used disposable CLs by *Acanthamoeba*, 155
Increased *Pseudomonas aeruginosa* adhesion following air drying of etafilcon A soft CLs, 236
Management of infectious keratitis as we approach the 21st century, 175
Peripheral corneal infiltrates and CL wear (editorial), 134

Night vision
Evaluation of night vision disturbances in CL wearers, 107

Oxygen transmissibility
Determination of oxygen tension on rabbit corneas under CLs, 220

Pediatric contact lens fitting
Rigid gas permeable CL changes in the aphakic infant, 36

Pellucid degeneration
Spontaneous corneal perforation in pellucid marginal degeneration, 186

Penetrating keratoplasty
Alcaligenes xylosoxidans keratitis post penetrating keratoplasty in a RGP lens wearer, 239
Analysis of the accuracy of predicted corneal acuity in the Holladay diagnostic summary program, 141
Corneo-scleral RGP lenses for Post-graft patients (letter), 198
Suction cup/CL complications following penetrating keratoplasty, 59
Topical Cyclosporine A in the Management of postkeratoplasty glaucoma and corticosteroid-induced ocular hypertension and the penetration of topical 0.5% Cyclosporine A into the cornea and anterior chamber, 159

Photorefractive keratectomy (PRK)
Keratocyte apoptosis in refractive surgery, 181

Pseudomonas aeruginosa
Cytotoxic strains of *Pseudomonas aeruginosa* can damage the intact corneal surface in vitro, 41
CL associated bacterial keratitis: Past, present and future, 52
Increased *Pseudomonas aeruginosa* adhesion following air drying of etafilcon A soft CLs, 236

Pterygium
Refractive change following pterygium surgery, 115

Radial keratotomy
Rigid gas permeable CL fitting after radial keratotomy, 33

RGP contact lenses
Alcaligenes xylosoxidans keratitis post penetrating keratoplasty in a RGP lens wearer, 239
Comparison of axial and instantaneous videokeratographic data in keratoconus and utility in CL curvature prediction, 22
Corneo-scleral RGP lenses for Post-graft patients (letter), 198
Determination of oxygen tension on rabbit corneas under CLs, 220
Masking of irregular corneal topography with CLs, 76
Peripheral corneal infiltrates and CL wear (editorial), 134
Rigid gas permeable CL fitting after radial keratotomy, 33
Rigid gas permeable CL changes in the aphakic infant, 36
Role of computerized corneal topography in RGP CL fitting, 206

Therapeutic contact lenses
An alternative approach to bandage CLs, 118

Tinted contact lenses
Contact lenses: Knowledge is safety (editorial), 194
Use of occluding tinted CLs, 125

Visual acuity
Analysis of the accuracy of predicted corneal acuity in the Holladay diagnostic summary program, 141
